Scholarship Opportunities

SNA Iowa now offers three scholarship opportunities for members. These are a great way to attend a meeting or conference, work towards obtaining your degree or even help send your child to college.

Meeting / Conference Scholarship

Would you like to attend a class, seminar, an SNA Iowa training, an industry conference or the SNAI Iowa Annual Conference? Have you been a member of SNA Iowa and employed in the school nutrition field for at least two consecutive years? Apply for a SNAI Meeting / Conference Scholarship. These scholarships are designed to help you further your skills and improve the quality of programs that you are offering in your schools.

The application process is simple - complete some basic information on your past and present employment information, your involvement in the industry and your long term goals, then let us know how this opportunity will allow you to work towards those goals. Two professional references and letters of recommendation are required.

Member Scholastic Scholarship

Are you thinking of going back to school and furthering your education in the area of food and nutrition? Maybe finish or obtain your undergraduate degree in food service management or the culinary arts? Or do you want to go further and get a graduate degree? If you have been a member of SNA Iowa and working in the school nutrition industry for at least consecutive years, we would love to help you achieve that dream.

Complete our simple application with information related to your education, long term goals, and how your course of study will help you achieve those. Two references with letters of recommendation are required for this application as well. Scholarships are awarded by June 1st of each year.

Family Scholastic Scholarship

Do you have a child headed to college this year? Or maybe a spouse that would like to go back to school? Dependents of SNA Iowa members who have worked in school nutrition and have been a member of SNA Iowa for at least 10 years are also eligible for scholarship assistance to attend college.

Our application includes basic information about your education, projected expenses, and long term goals, as well as two references with letters of recommendation. Dependents do not need to be entering the school nutrition field to receive scholarship assistance.
